- Day Three Concludes

THIS IS WHAT PAST PARTICIPANTS HAVE TO SAY!

The Loudoun County Sanitation Authority wants to extend its appreciation of the Badger Meter school which was recently held and attended by several of our employees. It was a very beneficial program, not only for meter applications, but also for engineering criteria. We feel the class would be beneficial for any type of water authority or other utility. It was a very well presented and exceptional program. Meter readers and technicians alike would benefit by attending future classes.

Kirk E. Marsh, Field Service Supervisor, Loudoun County Sanitation Authority, VA

I would like to take this time to personally thank each and every one involved in the recent training I attended at your plant. I have never been so impressed with a group of people in my entire career.

The training was not only extremely informative, relaxing, customer oriented, it was made a great environment to ask and learn in.

The topics were covered well, the information given us will be used in our jobs on a daily basis, and the program exceeded my expectations. I have never been treated so respectfully by a Vendor in many many years. The fact that your product speaks for itself in the Industry and group of people I met is what makes Badger Meter the leader in the industry.

I enjoyed meeting each and every one of You , and look forward to many years of a business relationship with Badger Meter. Again, Thanks to Y'ALL for a wonderful experience.

Frank Golden, City of Huntsville, TX

I would like to thank the instructors and staff of Badger Meter, Inc. involved in the recent Customer Product Training Classes. The classes were informative and the hospitality was first class.

Scott Fredrickson, Measurement Services Supervisor, Public Works & Utilities-Duluth, MN

I would like to thank Badger Meter, Inc. for their continuing efforts in trying to keep us (their customers) informed of the new and existing ways that they are working for and with us. The Customer Product Training Class was an outstanding way to learn and find answers to questions that we have had. All of the presenters were very knowledgeable and if they didn't know an answer right off, they would find out by the end of the day.

Danny Stokes, Assistant Manager, Ogden City Water Utility, UT

Larry McNamee - Regional Manager

Mike Grafwallner - Subcontractor Manager

Mike Riha - Manager - Training Support

Ken Labre - Training Support - Support Specialist

Tim Thoenes - Technical Support - Support Specialist

Brian Blashka - Technical Support - Support Specialist

Kelley Johnson - Coordinator

Morrice Blackwell - Marketing Manager - AMI Network Solutions

Rob FehI - Product Marketing Manager
