

Badger's Recordall® Transmitter Register

The Connectivity Solution

Connectivity of your system's future begins with the RTR!

At the heart of every Badger® AMR metering solution is the Recordall Transmitter Register (RTR®). The RTR provides utilities many advantages over other encoder registers.

- Digital signaling delivers electronic resolution to 1 U.S. gallon
- An open protocol eliminates network interface complexities
- Extremely low power requirements provide long-term savings
- Glass and metal packaging offers one solution for all pit and remote applications
- Permanent seal process provides superior protection against water intrusion
- Connectivity to other water AMR solutions including DataMatic®, Hexagram® and RAMAR®

Badger Meter – Leading the way in flow measurement *and* connectivity to advanced AMR technologies.
