

MEASURE RITE®

Sight Tube Dispenser

BadgerMeter, Inc.

Description:

The **MEASURE RITE® Quick Change Sight Tube** is designed for use with admix dispensers and truck mixers to visually reference chemicals and water going into the concrete mix.

Badger offers sight tubes in ½-foot increments with a 1-foot minimum.

Features:

- Provides for quick and easy replacement in the field.
- Corrosion resistant.
- Rugged.
- Handles higher-pressure applications and large quantities in admixture dispensing and concrete truck applications.
- Clear and rigid PVC pipe.
- Simple tube assembly allows for easy removal for replacing or cleaning.
- Users can be cost efficient by reducing sight tube replacement time to seconds rather than minutes.
