

Current meter reading system got you  
turned upside down?

With an Itron<sup>®</sup> AMR system from Badger Meter, you can get your feet back on the ground with a field proven multi-utility AMR solution. Gain efficiency and reading accuracy with Itron's advanced G5 handheld computing technology or the powerful Mobile Collector, which is the latest addition to the Itron AMR solution. An Itron AMR system improves efficiency, increases flexibility and eliminates estimated readings.

See your Badger Meter representative to find out why there are more Itron units installed in North America than any other AMR system!
