

Our floating rotor puts a new spin on turbo meters.

**WHERE**  
THERE'S NO FRICTION,  
THERE'S  
**NO WEAR.**

In turbo meters, like tires, friction has resulted in wear, reduced performance and reduced revenue. Not anymore. Recordall® Turbo Series Meters reduce wear by reducing friction between moving parts, which means lower life-cycle costs. All due to Badger Meter's exclusive *floating rotor*. Contact your Badger Meter representative for all the facts on our line of turbos. And get the spin that can help you generate even greater revenues.

**BadgerMeter, Inc.**

Test Plug.

Performance. Reliability. Revenue.
