

# Made to Order.

**Badger Meter's Dispenser Systems** are designed for use in concrete batch plants or wherever the need is to dispense admixtures directly into the concrete with accurate, reliable and easy operation. They are available with electric or air supply. Badger's dispensers interface with batch plant panels, or can be used with semi-automatic controllers. These units are designed to give years of trouble-free performance.

Standard products are available with manual, semi-automatic, or computer interface with 1, 2, 3 or 4-product dispensers, or specify the number of dispensers.

**Give us your individual requirements and we will design a dispenser that best suits your needs!**
